

To ensure high-quality printed products, the submitted files must comply with the following specifications:

Supported software	Adobe Illustrator, Adobe InDesign, Adobe Photoshop, Adobe Acrobat
File formats	PDF (X-1a or X-3) uncompressed, TIFF, AI, EPS, PSD, JPEG. <i>Note: If possible, please also send open files plus a view/approval PDF.</i>
Scale	Create artwork at 1:10 scale.
Resolution	Minimum 750 ppi at 1:10 scale (equivalent to 75 ppi at 1:1). <i>Tip: Check your files at 100% (1:1) on screen for blur or stair-stepping.</i>
Safe area (inner margin)	Keep sufficient distance between text/logos and the final size (approx. 5 mm at 1:10), so a seam won't run through important elements.
Bleed	Provide at least 3 mm bleed at the scale 1:10.
Colour mode	Supply data in CMYK only.
Deep black	C = 0% M = 0% Y = 0% K = 100%
Pure greys	C = 0% M = 0% Y = 0% K = 0 – 100%
Gradients	Create colour gradients in Photoshop as image files.
Spot colours	Define Pantone and RAL as spot colours. <i>Note: Exact reproduction of defined colours is not 100% possible in digital printing.</i>
ICC profiles	Use ISOcoated v2 300% (Download: ISOcoated v2 300% eci.icc). The profile is available from the ECI (European Color Initiative www.eci.org) website.
Fonts	Convert all fonts to outlines, or supply the fonts (zipped).
Minimum line width	Positive lines: 0.05 mm at scale 1:10 Reversed (knocked-out) lines: 0.1 mm at scale 1:10
Overprint / trapping	Do not use overprint or trapping in your files.
Transparencies	Avoid transparencies (especially in combination with spot colours).
Design service	If you don't have press-ready artwork, we can handle design and file preparation.
File delivery	www.swisstransfer.com or www.wetransfer.com : send us the download link by email. E-Mail: sales@flagprint.ch for files up to 10 MB Physical media: USB memory stick.
Desktop work rates	Scanning, image editing, layout and typesetting are billed at CHF 140.00/hour. Final costs are determined after we receive your materials and are charged according to effort.

Resolution

Minimum resolution* **75 ppi** at scale **1:1**
Minimum resolution* **750 ppi** at scale **1:10**

You can also check the image properties at www.pixelcalculator.com

How to check with the pixel calculator:

* Depending on purpose and viewing distance, some tolerance is possible (see next page 3).

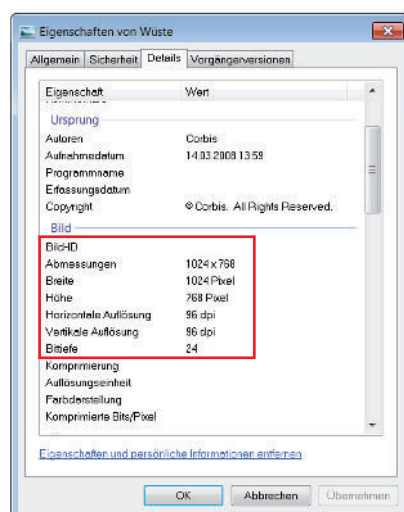

Different factors such as intended use or viewing distance, some tolerance in resolution is acceptable.

Compare with your image's actual pixels to see if it's sufficient.

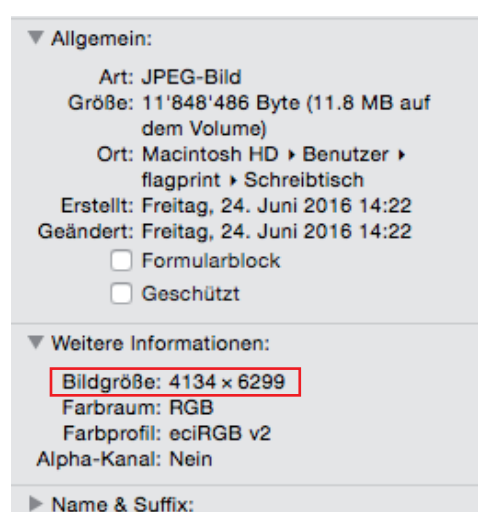

How to find an image's pixel dimensions:

Windows: -> right-click file -> properties -> details
MacOS: -> right-click file -> information -> more information

Windows

Mac OS

Adobe Stock images

flagprint works with Adobe Stock. We can procure any images you need.
Standard license CHF 25 per image / www.stock.adobe.com

Viewing Distance

0 – 1 m	min. 75 ppi
1 – 2 m	min. 60 ppi
2 – 4 m	min. 45 ppi
4 – 6 m	min. 35 ppi
over 6 m	25 ppi

Tip: Print this page and judge from the intended viewing distance to choose the optimal minimum resolution for your print.
